

The 20th International Symposium of Mathematical Programming (ISMP) August 23 - 29, 2009

Contributed Abstract Submission Instructions

Please review this important information before submitting your abstract.

General Information

- You are permitted only one contributed abstract as the presenting author (speaker). You can be a co-author on other contributed abstracts, and you can also be a presenting author or co-author on other invited or sponsored abstracts.
- As the presenting author, you are expected to present the work at the meeting. Your co-authors are also encouraged to attend.
- All attendees, including authors and Session Chairs, must register and pay the registration fee.
- Contributed abstracts are not reviewed and virtually all abstracts are accepted. There is no abstract fee.
- You are not required at any time to submit the entire paper. Only the abstract is required.

To Submit

Before you proceed to the login, have the following information ready:

- Contact information for yourself and any co-authors (full name, affiliation, email address and mailing address)
- The paper title (100 characters max) and abstract (750 characters max).

Your submission will not be accepted without the required information.

- Your email address is the key for entry into the system and is used to avoid scheduling conflicts. It's very important that you use only one email address if you enter multiple submissions. You will receive an email confirming that we received your online submission.
- You will be asked to identify three clusters that would be appropriate for your talk. In most cases, we will schedule your talk in the first cluster on your list.
- Use the COMMENTS field for any requests: for example, if you need an acceptance letter for budgetary reasons or to apply for a visa, or if you have scheduling requests.
- After submission, you can return to your abstract to make changes or additions.
